| Barbara Boyd | City Secretary |

INDEPENDENT AUDITORS' REPORT

Honorable Mayor and City Council City of Center Center, Texas

We have audited the accompanying financial statements of the governmental activities, the business-type activities, the aggregate discretely presented component units, each major fund, and the aggregate remaining fund information of the City of Center, Texas, as of and for the year ended September 30, 2016, and the related notes to the financial statements, which collectively comprise the City's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial statements audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States.. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Opinions

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, the aggregate discretely presented component units, each major fund, and the aggregate remaining fund information of the City of Center, Texas, as of September 30, 2016, and the respective changes in financial position and, where applicable, cash flows thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis, budgetary comparison information, and the schedule of changes in net pension liability and related ratios on pages 6-13, 44-47 and 48 be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Other Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the City of Center, Texas' basic financial statements. The introductory section, the supplementary information section, and statistical section are presented for purposes of additional analysis and are not a required part of the basic financial statements.

The supplementary information section and the compliance section are the responsibility of management and were derived from and relate directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, these sections are fairly stated, in all material respects, in relation to the basic financial statements as a whole.

The introductory and statistical sections have not been subjected to the auditing procedures applied in the audit of the basic financial statements and, accordingly, we do not express an opinion or provide any assurance on them.

Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued our report dated March 27, 2017, on our consideration of the City's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on internal control over financial reporting or on compliance. That report on page 68 - 69 is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering City's internal control over financial reporting and compliance.

Lufkin, Texas March 27, 2017

Management's Discussion and Analysis

As management of the City of Center, Texas, we offer readers of the City of Center's financial statements this narrative overview and analysis of the financial activities of the City of Center (City) for the fiscal year ended September 30, 2016.

Financial Highlights

- The assets of the City exceeded its liabilities at the close of the most recent fiscal year by \$25,803,266 (net position).
- Government activities change in net position increased \$385,066 to \$13,192,980.
- The City's governmental funds reported combined ending fund balances of \$2,571,816 an increase of \$424,786 from the prior year of \$2,147,030.
- The fund balance for the general fund was \$1,286,531 or 28.01% of total general fund expenditures and decreased \$177,986 during this fiscal year.
- The Water and Sewer Fund operating revenues exceeded expenses resulting in operating income of \$65,097 and the fund generated a decrease in net position of \$355,769 resulting in the net position of the Utility Fund to \$12,538,822.
- The combined non-major governmental funds experienced a decrease in fund balance of \$82,462 to \$826,796.
- The 4B Street Improvements for Economic Development is shown as a component unit of the City. The annual street program is recorded as an expense in the Governmental Funds so that the asset can be recorded.

Overview of the Financial Statements

This discussion and analysis are intended to serve as an introduction to the City of Center's basic financial statements. The City's basic financial statements comprise three components: 1) government-wide financial statements, 2) fund financial statements, and 3) notes to the financial statements. This report also contains other supplemental information in addition to the basic financial statements themselves.

Government-Wide Financial Statements. The *government-wide financial statements* are designed to provide readers with a broad overview of the City's finances, in a manner similar to a private-sector business.

The *statement of net position* presents information on all of the City's assets deferred outflows and liabilities and deferred inflows, with the difference between the two reported as *net position*. Over time, increases or decreases in net position may serve as a useful indicator of whether the financial position of the City is improving or deteriorating.

The statement of activities presents information showing how the government's net position changed during the most recent fiscal year. All changes in net position are reported as soon as the underlying event giving rise to the change occurs, regardless of the timing of related cash flows. Thus, revenues and expenses are reported in this statement for some items that will only result in cash flows in future fiscal periods (e.g., uncollected taxes and earned but unused vacation leave).

Both of the government-wide financial statements distinguish functions of the City that are principally supported by taxes and intergovernmental revenues (governmental activities) from other functions that are intended to recover all or a significant portion of their costs through user fees and charges (business-type activities). The governmental activities of the City include general government, public safety, culture and recreation, planning and community development, sanitation and public facilities. The business-type activities of the City include water and sewer utility services.

Fund Financial Statements. A *fund* is a grouping of related accounts that is used to maintain control over resources that have been segregated for specific activities or objectives. The City, like other state and local governments, uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements. All of the funds of the City of Center can be divided into two categories: governmental funds or proprietary funds.

Governmental Funds. Governmental funds are used to account for essentially the same functions reported as *governmental activities* in the government-wide financial statements. However, unlike the government-wide financial statements, governmental fund financial statements focus on *near-term inflows and outflows of spendable resources*, as well as on *balances of spendable resources* available at the end of the fiscal year. Such information may be useful in evaluating a government's near-term financing requirements.

Because the focus of governmental funds is narrower than that of the government-wide financial statements, it is useful to compare the information presented for *governmental funds* with similar information presented for *governmental activities* in the government-wide financial statements. By doing so, readers may better understand the long-term impact of the government's near-term financing decisions. Both the governmental fund balance sheet and the governmental fund statement of revenues, expenditures, and changes in fund balances provide a reconciliation to facilitate this comparison between *governmental funds* and *governmental activities*.

The City of Center maintains thirteen individual governmental funds. Information is presented separately in the governmental fund balance sheet and in the governmental fund statement of revenues, expenditures, and changes in fund balances for the General Fund. Data from the other governmental funds are combined into a single, aggregated presentation. Individual fund data for each of the non-major governmental funds, including the Debt Service Fund, is provided in the form of combining statements elsewhere in this report.

The City adopts an annual appropriated budget for its General Fund, Debt Service Fund, and special revenue funds - Trust Funds. A budgetary comparison statement has been provided for the General Fund to demonstrate compliance with budget.

Proprietary Funds. The City maintains one proprietary fund. *Enterprise funds* are used to report the same functions presented as *business-type activities* in the government-wide financial statements. The City uses an enterprise fund to account for its Water and Sewer utility service. *Internal service funds* are an accounting device used to accumulate and allocate costs internally among the City's various functions. The City currently uses no internal service funds.

Proprietary funds provide the same type of information as the government-wide financial statements, only in more detail. The proprietary fund financial statements provide information for the water and sewer utility service, which is considered to be a major fund of the City of Center.

Notes to the Financial Statements. The notes provide additional information that is essential to a full understanding of the data provided in the government-wide and fund financial statements.

Other Information. In addition to the basic financial statements and accompanying notes, this report also presents certain required supplementary information concerning the City of Center's progress in funding its obligations to provide retirement benefits to its employees. This required supplementary information can be found after the notes to financial statements on page 48 of this report.

The combining statements referred to earlier in connection with non-major governmental funds are presented immediately following the required supplementary information. Combining and individual fund statements and schedules can be found of pages 50-60 of this report.

Government-Wide Financial Analysis

As noted earlier, net position may serve over time as a useful indicator of a government's financial position. In the case of the City, assets and deferred outflows exceeded liabilities and deferred inflows by \$25,803,265 at the close of fiscal year 2016. This represents an increase of \$100,760 from the 2015 restated net position of \$25,702,505.

By far the largest portion of the City's assets (\$19,251,937), 76%, reflects its investment in capital assets (e.g., land, buildings, vehicles and equipment), less the outstanding balance of related debt used to acquire those assets. The City uses these capital assets to provide services to citizens; consequently, these assets are not available for future spending. Although the City of Center's investment in its capital assets is reported net of related debt, it should be noted that the resources needed to repay this debt must be provided from other sources, since the capital assets themselves cannot be used to liquidate these liabilities. This year's net position values indicate increases because of acquisition and construction of assets through the Capital Projects Fund.

Governmental Activities. Governmental activities increased the City of Center's net position by \$122,051. Key elements of this increase are as follows:

- Governmental Revenues decreased \$1,535,231 from prior year revenues;
 - Decrease in realized Charges for Service (\$1,292,938) due to creation of Sanitation Fund in Business Type Activities
 - Decreases in Operating Grants (\$87,852) and increases in Taxes (\$263,575)
 - Decreases in Other Taxes (\$214,458)
- Governmental Expenses decreased \$307,180 from prior year expenses;
 - Increase in General Government expenses of \$311,769
 - Increase in Public Safety of \$132,678 related to increased operational expenses
 - Increase in Streets & Drainage of \$292,848
 - Decrease in Interest on Debt and Bond Issuance Costs totaling \$22,109

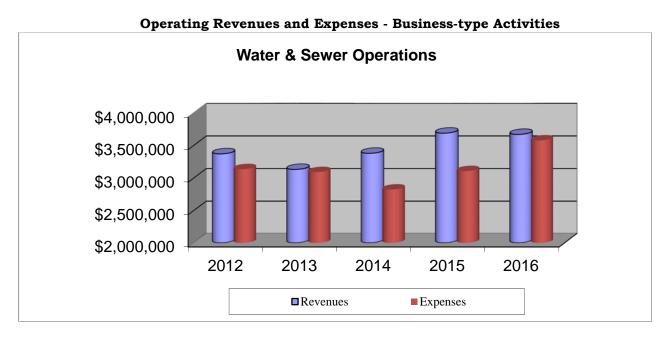

Business-Type Activities. Business-type activities decreased the total government's net position by \$284,306. Key elements of this change are as follows:

- Revenues increased \$1,390,493 from the prior year to \$5,089,329
 - o Charges for services increased \$1,389,422 mostly from Sanitation Services
- Expenses increased \$1,625,146 from prior year to \$4,786,204
- Transferred Sanitation to Business-Type Activities increasing expenses \$1,151,852

Proprietary Funds. The City of Center's proprietary funds (pages 21-23) provide the same type of information found in the government-wide financial statements for business-type activities but in more detail.

- Operating Revenues exceeded expenses resulting in Operating Income of \$321,508.
- Including non-operating expenses, primarily costs of debt, Change in Net Position is (\$284,306) offset by a prior year adjustment of \$58,540 to \$12,610,285.

As a component of Total Net Position, the Unrestricted Net Position of the Proprietary Funds at the end of the current fiscal year is \$148,708, increasing mostly from the addition of the Sanitation and Vehicle Replacement Fund. The decrease in net position for Business-Type Activities totaled \$284,306. Other factors concerning these funds have been addressed in the discussion of the City's business-type activities.

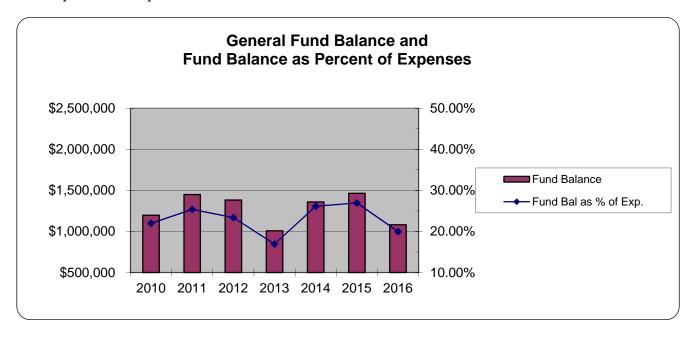

Financial Analysis of the Government's Funds

As noted earlier, the City of Center uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements.

Governmental Funds. The focus of the City's *governmental funds* is to provide information on nearterm inflows, outflows, and balances of *spendable* resources. Such information is useful in assessing the City's financing requirements. In particular, *unreserved fund* balance may serve as a useful measure of a government's net resources available for spending at the end of the fiscal year.

As of the end of the current fiscal year, the City of Center's governmental funds reported combined ending fund balances of \$2,571,816, an increase of \$424,786 from the prior year. Approximately 46% of this total amount, \$1,286,531, constitutes *unreserved fund balance*, which is available for spending at the government's discretion. The remaining 54% of fund balance is *reserved* to indicate that it is not available for spending because it has already been committed and dedicated to 1) pay debt service, 2) for perpetual trust 3) for capital projects or 4) grant projects.

The general fund is the chief operating fund of the City of Center. At the end of the current fiscal year, total general fund balance was \$1,286,532. The fund balance of the City's general fund decreased by \$96,162 during the current fiscal year. As a measure of the general fund's liquidity, it may be useful to compare total fund balance to total fund expenditures. Total fund balance represents 30% of total general fund operational expenditures.

General Fund Budgetary Highlights

The General Fund accounts for the primary operations of the City and a budget comparison is provided on pages 44-47. Budget amendments approved in the current year decreased budgeted revenues by \$1,255,400 and budgeted expenditures by \$1,148,200 mostly due to the creation of the Sanitation Fund.

A review of the final amended budget compared to actual revenues/expenditures presents a number of variances. Total revenues decreased from the original budget by \$1,263,047 and decreased from the final amended budget by \$10,747. Total expenditures decreased from the original budget by \$1,151,776 and decreased from the final amended budget by \$154,975. After transfers to and from other funds, namely the creation of the Vehicle Replacement Fund, and Sanitation Fund the general fund experienced a decrease in the fund balance of \$177,985.

Capital Asset and Debt Administration

Capital Assets. The City of Center's investment in capital assets for its governmental and business-type activities amounts to \$32,916,546 (net of accumulated depreciation) at the end of the current fiscal year decreasing from last year's amount of \$33,093,221. This investment in capital assets includes land, buildings, improvements, vehicles and equipment. Due to the size of the City, past asset valuations for major infrastructure (streets, bridges, drainage, etc.) are not required to comply with reporting requirements, however beginning in fiscal year 2004, the City began prospectively accumulating values for these major capital assets.

Long-Term Debt. At the end of the current fiscal year, the City of Center had total bonded debt outstanding of \$12 395 000, an increase from last year's total bonded debt of \$8,930,000. This increase is the result of the issuance of Certificates of Obligation in 2016. All is backed by the full faith and credit of the government.

Short-Term Notes Payable. Short-term notes payable include a note by the City's Tax Increment Reinvestment Zone Fund to the Center Economic Development Corporation in 2011. In 2013, a four-year loan was added for Police video and computer equipment.

The City of Center's debt issuance rating by Moody's was upgraded in 2007 from a rating of "Baa2" to a rating of "A2". This pertains to the current debt issuances for general obligation and any other bonded debt. This rating was reaffirmed by Moody's in 2016.

As a Home Rule City, the City of Center, Texas is not limited by law in the amount of debt it may issue.

Additional information on the City's long-term debt can be found in note 3. D. on pages 34-36 of this report.

Economic Factors and Next Year's Budgets and Rates

- The unemployment rate as of August, 2016 for Shelby County, according to Texas Workforce Commission statistics, is 6.5%. The unemployment rates for August 2016, according to the Texas Workforce Commission, are 5.0% for the State of Texas and 6.6% for the Deep East Texas Region.
- The City's total state sales tax receipts, including the 1¼% for governmental purposes and the two Economic Development Corporations, for the current fiscal year, totaled \$3 069 326 an increase of \$81 807 or 2.7% from the previous year (\$1,879,768). This indicates a continued slowing of the growth of the prior two years primarily resulting from decreases in retail outlets and overall taxable sales but specifically those related to oil and gas industry activities.
- Economic trends in the area are stabilizing relative to state and national indices and trends.

All of these factors were considered in preparing the City of Center's budget for the 2017 fiscal year.

Requests for Information

This financial report is designed to provide a general overview of the City of Center's finances for all those with an interest in the government's finances. Questions concerning any of the information provided in this report or requests for additional financial information should be addressed to the City Secretary, P. O. Box 1744, 617 Tenaha Street, City of Center, Texas, 75935-1744.

CITY OF CENTER, TEXAS RECONCILIATION OF THE STATEMENT OF REVENUES, EXPENDITURES AND CHANGES IN FUND BALANCES OF GOVERNMENTAL FUNDS TO THE STATEMENT OF ACTIVITIES Year Ended September 30, 2016

Amounts Reported for Governmental Activities in the Statement of Activities are Different Because:

| Net change in fund balances - Total governmental funds | \$ | 424 786 |
|--|----|-----------|
| Governmental funds report capital outlays as expenditures. However, in the statement of activities the cost of those assets is allocated over their estimated useful lives and reported as depreciation expense. This is the amount by which capital outlays exceeded depreciation in the current period. | | 215 376 |
| Revenues in the statement of activities that do not provide current financial resources are not reported as revenues in the funds. | | (174 432) |
| Internal service net revenues are reported with governmental activities and the expenses not recovered through user changes are allocated to the participating funds. | | 305 046 |
| The issuance of long-term debt (e.g., bonds, notes, and pension) provides current financial resources to governmental funds, while the repayment of the principal of long-term debt consumes the current financial resources of governmental funds. Also, governmental funds report the effect of issuance costs, premiums, discounts, and similar items when debt is first issued, whereas, these amounts are deferred and amortized in the statement of activities. This amount is the net effect of these differences in the treatment of long-term debt and related items. | _ | (385 710) |
| CHANGE IN NET POSITION OF GOVERNMENTAL ACTIVITIES | \$ | 385 066 |

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The City of Center, Texas was incorporated in 1900. The City operates under a Home Rule Charter adopted April 7, 1984 under Section 5, Article XI of the Texas Constitution as a Council-Manager form of government under the provisions of the charter and the V.T.C.A., Local Government Code.

The accounting policies of the City of Center, Texas conform to generally accepted accounting principles as applicable to governments. The City applies all relevant Governmental Accounting Standards Board (GASB) pronouncements. Proprietary funds apply Financial Accounting Standards Board (FASB) pronouncements and Accounting Principles Board (APB) opinions issued on or before November 30, 1989, unless those pronouncements conflict with or contradict GASB pronouncements, in which case, GASB prevails. The following is a summary of the more significant policies:

A. Reporting Entity:

The accompanying financial statements present the government and its component units, entities for which the government is considered to be financially accountable. Discretely presented component units are reported in a separate column in government-wide financial statements (see note below for description) to emphasize that they are legally separate from the government.

Individual Component Unit Disclosures:

Discretely Presented Component Units:

<u>The City of Center Economic Development Corporation</u> - Established in 1994, the Corporation is a 4A nonprofit industrial development corporation specifically governed by the Development Corporation Act. The purpose of the Corporation is to promote, assist, and enhance economic development. The Corporation is governed by a Board of Directors appointed by the City Council.

Complete financial statements of the Corporation can be obtained from: The City of Center Economic Development Corporation, 617 Tenaha Street, Center, Texas.

The City of Center Street Improvements for Economic Development Corporation - Established in 1996, the Corporation is a 4B nonprofit industrial development corporation specifically governed by the Development Corporation Act. The purpose of the Corporation is to promote, assist and enhance economic development by undertaking projects of street and road and related improvements. The Corporation is governed by a Board of Directors appointed by the City Council.

Complete financial statements of the Corporation can be obtained from: The City of Center Street Improvements for Economic Development Corporation, 617 Tenaha Street, Center, Texas.

B. Government-Wide and Fund Financial Statements:

The government-wide financial statements (i.e., the statement of net position and the statement of activities) report information on all of the nonfiduciary activities of the primary government and its component units. For the most part, the effect of interfund activity has been removed from these statements. *Governmental activities*, which normally are supported by taxes and intergovernmental revenues, are reported separately from *business-type activities*, which rely to a significant extent on fees and charges for support. Likewise, the *primary government* is reported separately from certain legally separate *component units* for which the primary government is financially accountable.

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - CONTINUED

The statement of activities demonstrates the degree to which the direct expenses of a given function or segment are offset by program revenue. *Direct expenses* are those that are clearly identifiable with a specific function or segment. *Program revenues* include (1) charges to customers or applicants who purchase, use, or directly benefit from goods, services, or privileges provided by a given function or segment and (2) grants and contributions that are restricted to meeting the operational or capital requirements of a particular function or segment. Taxes and other items not properly included among program revenues are reported instead as *general revenues*.

Separate financial statements are provided for governmental funds and proprietary funds. Major individual governmental funds and major individual enterprise funds are reported as separate columns in the fund financial statements.

C. Measurement Focus, Basis of Accounting, and Financial Statement Presentation:

The government-wide financial statements are reported using the *economic resources* measurement focus and the accrual basis of accounting, as are the proprietary fund financial statements. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. Property taxes are recognized as revenues in the year for which they are levied. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met.

Governmental fund financial statements are reported using the *current financial resources* measurement focus and the modified accrual basis of accounting. Revenues are recognized as soon as they are both measurable and available. Revenues are considered to be available when they are collectible within the current period or soon enough thereafter to pay liabilities of the current period. For this purpose, the government considers revenues to be available if they are collected within 60 days of the end of the current fiscal period. Expenditures generally are recorded when a liability is incurred, as under accrual accounting. However, debt service expenditures, as well as expenditures related to compensated absences and claims and judgments, are recorded only when payment is due.

Property taxes, franchise taxes, licenses and interest associated with the current fiscal period are all considered to be susceptible to accrual and so have been recognized as revenues of the current fiscal period. Only the portion of special assessments receivable due within the current fiscal period is considered to be susceptible to accrual as revenue of the current period. All other revenue items are considered to be measurable and available only when cash is received by the government.

The government reports the following governmental funds:

<u>General Fund</u> - The general fund is the primary operating fund of the City. It is used to account for all financial resources except those required to be accounted for in another fund.

<u>Capital Project Fund</u> - The capital project fund is used to account for monies earmarked from bond activities.

<u>Special Revenue Funds</u> - Special revenue funds are used to account for specific revenues that are legally restricted to expenditures for particular purposes.

<u>Debt Service Fund</u> - Debt service funds are used to account for the accumulation of resources for, and the payment of, principal, interest, and related costs on long-term general obligation debt of governmental funds.

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - CONTINUED

<u>Permanent Fund</u> - This fund is used to account for assets held by the City pursuant to a trust agreement. The principal portion of this fund must remain intact, but the earnings may be used to achieve the objectives of the fund.

The government reports the following proprietary funds:

<u>Water and Sewer Fund</u> - This fund accounts for the provision of water and sewer services to the residents of the City and some residents of the County. All activities necessary to provide such services are accounted for in this fund, including, but not limited to, administration, operations, maintenance, financing and related debt services, and billing and collection.

<u>Sanitation Fund</u> - This fund accounts for the provision of sanitation services to the residents of the City and some residents of the County. All activities necessary to provide such services are accounted for in this fund, including, but not limited to, administration, operations, maintenance, financing and related debt services, and billing and collection.

Private-sector standards of accounting and financial reporting issued prior to December 1, 1989, generally are followed in both the government-wide and proprietary fund financial statements to the extent that those standards do not conflict with or contradict guidance of the Governmental Accounting Standards Board. Governments also have the *option* of following subsequent private-sector guidance for their business-type activities and enterprise funds, subject to this same limitation. The government has elected not to follow subsequent private-sector guidance.

As a general rule, the effect of interfund activity has been eliminated from the government-wide financial statements. Exceptions to this general rule are payments-in-lieu of taxes and other charges between the government's water and sewer function and various other functions of the government. Elimination of these charges would distort the direct costs and program revenues reported for the various functions concerned.

Amounts reported as *program revenues* include (1) charges to customers or applicants for goods, services, or privileges provided, (2) operating grants and contributions, and (3) capital grants and contributions, including special assessments. Internally dedicated resources are reported as *general revenues* rather than as program revenues. Likewise, general revenues include all taxes.

Proprietary funds distinguish *operating* revenues and expenses from *nonoperating* items. Operating revenues and expenses generally result from providing services and producing and delivering goods in connection with a proprietary fund's principal ongoing operations. The principal operating revenues of the water and sewer enterprise fund are charges to customers for sales and services. The water and sewer fund also recognizes as operating revenue the portion of tap fees intended to recover the cost of connecting new customers to the system. Operating expenses for enterprise funds include the cost of sales and services, administrative expenses, and depreciation on capital assets. All revenues and expenses not meeting this definition are reported as nonoperating revenues and expenses.

When both restricted and unrestricted resources are available for use, it is the government's policy to use restricted resources first, then unrestricted resources as they are needed.

D. Assets, Liabilities, and Net Position or Equity

1. Deposits and Investments:

The government's cash and cash equivalents are considered to be cash on hand, demand deposits, and short-term investments with original maturities of three months or less from the date of acquisition.

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - CONTINUED

The City's investment policies are governed by state statutes and city ordinances. Permissible investments include direct obligations of the U. S. Government, certificates of deposit and savings accounts. Collateral is required for demand deposits and certificates of deposits of all amounts not covered by federal deposit insurance.

The Center Economic Development Corporation and the Center Street Improvements for Economic Development are authorized by their governing board to invest in obligations of the U. S. Government, certificates of deposit and savings accounts.

Investments for the government, as well as for its component units, are reported at fair value. Collateral is required for demand deposits and certificates of deposits of all amounts not covered by federal deposit insurance.

2. Receivables and Payables:

Activity between funds that are representative of lending/borrowing arrangements outstanding at the end of the fiscal year are referred to as either "due to/from other funds" (i.e., the current portion of interfund loans) or "advances to/from other funds" (i.e., the non-current portion of interfund loans). All other outstanding balances between funds are reported as "due to/from other funds". Any residual balances outstanding between the governmental activities and business-type activities are reported in the government-wide financial statements as "internal balances".

All trade and property tax receivables are shown net of the allowance for uncollectibles. Allowances for uncollectible accounts receivable are based upon historical trends and the periodic aging of accounts receivable.

Property taxes are levied on October 1, attach as an enforceable lien on property on January 1, and become delinquent on June 30 of every fiscal year.

3. Inventories and Prepaid Items:

All inventories are valued at cost using the first-in/first out (FIFO) method.

Certain payments to vendors reflect costs applicable to future accounting periods and are recorded as prepaid items in both government-wide and fund financial statements.

4. Restricted Assets:

Restricted assets include cash and investments or the proprietary funds that are legally restricted as to their use. The primary restricted assets are related to debt retirement, renewal and replacement, and construction activity of the Water and Sewer enterprise fund.

5. Capital Assets:

All purchased capital assets are valued at cost where historical records are available and estimated historical cost where no historical records exist. Donated capital assets are valued at their estimated fair market value on the date received or placed into service. Assets contributed by the general government to proprietary funds are valued at the lesser of their fair market value at the date of the transfer or original cost.

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - CONTINUED

The costs of normal maintenance and repairs that do not add to the value of the asset or materially extend assets lives are not capitalized.

For implementation of GASB 34 requirements for capital assets the City established the following categories and thresholds:

| Land/land improvement | Any Amount |
|-----------------------------------|--------------|
| Buildings/building improvements | \$ 25 000 |
| Facilities and other improvements | \$ 25 000 |
| Infrastructure | \$ 25 000 |
| Personal property | \$ 5 000 |
| Leasehold improvements | \$ 25 000 |

Interest is capitalized on proprietary fund assets acquired with tax-exempt debt. The amount of interest to be capitalized is calculated by offsetting interest expense incurred from the date of the borrowing until completion of the project with interest earned on invested proceeds over the same period.

Depreciation is provided over the estimated useful lives using the straight-line method. The estimated useful lives are as follows:

| Structures and water and sewer systems | 10 to 50 years |
|--|----------------|
| Infrastructure | 10 to 30 years |
| Transportation and other equipment | 3 to 20 years |

6. Compensated Absences:

The City accounts for expenditures related to sick pay when such payments are made to employees as amounts do not vest. The City accounts for all material liabilities and expenditures related to vacation pay during the fiscal year in which such benefits accrue. Employees are required to take vacation time if at all possible, and vacation time will not be allowed to be accrued more than 160 hours on an anniversary date. Sick leave can be accumulated up to 320 hours.

The City has determined that the current portion of the accrued expense for compensated absences cannot be reasonably estimated. Therefore, the total accrued expense for compensated absences is recorded as long-term debt in the financial statements.

7. Long-Term Obligations:

In the government-wide financial statements, and proprietary fund types in the fund financial statements, long-term debt and other long-term obligations are reported as liabilities in the applicable governmental activities, business-type activities, or proprietary fund type statement of net position.

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - CONTINUED

8. Fund Equity:

GASB Statement No. 54, "Fund Balance Reporting and Governmental Fund Type Definitions" provides more clearly defined fund balance categories to make the nature and extent of the constraints placed on a government's fund balances more transparent. The following classifications describe the relative strength of the spending constraints:

- Nonspendable Fund Balance Amounts that are not in spendable form (such as inventory) or are required to be maintained intact.
- Restricted Fund Balance Amounts constrained to specific purposes by their providers (such as grantors, bondholders, and higher levels of government), through constitutional provisions, or by enabling legislation.
- Committed Fund Balance Amounts constrained to specific purposes by the City itself, using its highest level of decision-making authority (i.e., City Council).
 To be reported as committed, amounts cannot be used for any other purpose unless the City takes the same highest level action to remove or change the constraint.
- Assigned Fund Balance Amounts the City intends to use for a specific purpose.
 Intent can be expressed by the City Council or by an official or body to which the City Council delegates the authority.
- Unassigned Fund Balance Amounts that are available for any purpose. Positive amounts are reported only in the general fund.

The City Council establishes (and modifies or rescinds) fund balance commitments by passage of an ordinance or resolution. This is typically done through adoption and amendment of the budget. A fund balance commitment is further indicated in the budget document as a designation or commitment of the fund (such as for special incentives). Assigned fund balance is established by City Council through adoption or amendment of the budget as intended for specific purpose (such as the purchase of fixed assets, construction, debt service, or for other purposes).

9. Deferred Outflows/Inflows of Resources:

In addition to assets, the statement of financial position will sometimes report a separate section for deferred outflows of resources. This separate financial statement element, deferred outflows of resources, represents a consumption of net position or fund balance that applies to a future period(s) and thus, will not be recognized as an outflow or resources (expense/expenditure) until then.

In addition to liabilities, the statement of financial position will sometimes report a separate section for deferred inflows of resources. This separate financial statement element, deferred inflows of resources, represents an acquisition of net position or fund balance that applies to a future period(s) and so will not be recognized as an inflow of resources (revenue) until that time.

10. Use of Estimates:

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results could differ from those estimates.

11. Subsequent Events:

Management has evaluated subsequent events through March 27, 2017, the date the financial statements were available to be issued.

NOTE 2 - STEWARDSHIP, COMPLIANCE AND ACCOUNTABILITY

A. Budgets and Budgetary Accounting:

The City follows these procedures in establishing the budgetary data reflected in the financial statements:

- (1) The City Manager submits to the City Council a proposed operating budget for the fiscal year. The operating budget includes proposed expenditures and the means of financing them.
- (2) Public hearings are conducted to obtain taxpayer comments.
- (3) The budget is legally enacted through passage of an ordinance.
- (4) The City Manager is authorized by the City Council to transfer budgeted amounts within departments of any fund; however, any revisions that alter the total expenditures of any fund are approved by the City Council.
- (5) Formal budgetary integration is employed as a management control device during the year for the General Fund.
- (6) The budget for the General Fund is adopted on a basis consistent with generally accepted accounting principles (GAAP).

B. City Fund Balance Policy:

The City of Center recognizes the importance of maintaining an appropriate level of Unassigned Fund Balance. After evaluating the City's operating characteristics, diversity of tax base, reliability of non-property tax revenue sources, working capital needs, impact on bond rating, State and local economic outlooks, emergency and disaster risk, and other contingent issues, the City establishes the following goals regarding the Unassigned Fund Balance of the General Fund for the City of Center, Texas.

Fund balance will be calculated by taking the total General Fund expenditure budget and deducting Airport departments. The rationale is this department receive a commensurate amount of funding from its own operations. The City now receives as much revenue from airport fuel sales to make the Center Municipal Airport self-sustaining.

The goal for this policy is that the City would retain in reserves a minimum of 20% and 25% optimally. This equates to 45 to 90 days of operating reserves which would allow the City to continue providing services without receiving additional funding.

Once the City achieves its goal of an appropriate level of Unassigned Fund Balance, any excess funds may be utilized for other municipal fiscal purposes, including without limitation, additional capital improvement needs or tax rate stabilization or reduction purposes. For example, by applying excess fund balances towards payment of capital improvement expenses, the City will reduce the need to incur long-term debt and will avoid creating an operating fund gap for subsequent fiscal years.

This policy has been adopted by the City to recognize the financial importance of a stable and sufficient level of the Unassigned Fund Balance. However, the City, reserves the right to appropriate funds from the Unassigned Fund Balance for emergencies and other unanticipated requirements the City believes to be in the best interest of the City.

NOTE 2 - STEWARDSHIP, COMPLIANCE AND ACCOUNTABILITY - CONTINUED

FUND BALANCE ANALYSIS

| | _ | 2016 |
|---|----|-----------|
| Beginning fund balance | \$ | 1 464 517 |
| Total general fund revenues and transfers | | 4 621 390 |
| Total general fund expenditures and transfers | _ | 4 799 375 |
| ENDING GENERAL FUND BALANCE | \$ | 1 286 532 |
| | - | |
| Airport expense | | (227966) |
| General fund expenditures | _ | 4 592 325 |
| ADJUSTED GENERAL FUND EXPENDITURES | \$ | 4 364 359 |
| | | |
| 20% | | 25% |
| Required Fund Balance \$ 914 282 | \$ | 1 142 852 |

Actual Fund Balance calculation represents 29.48% of adjusted General Fund Expenditures and 28.01% of non-adjusted General Fund Expenditures.

NOTE 3 - DETAILED NOTES ON ALL FUNDS

A. Deposits and Investments

Cash and cash equivalents - The carrying amount of cash and investments (bank balances net of outstanding checks and deposits) as of September 30, 2016 are classified in the accompanying financial statements as follows:

| Primary Government: | | |
|-----------------------------------|----|------------|
| Unrestricted cash and investments | \$ | 3 724 496 |
| Restricted cash and investments | | 5 390 249 |
| Component Units: | | |
| Cash and investments | _ | 1 746 326 |
| TOTAL CASH AND INVESTMENTS | \$ | 10 861 073 |

Cash and investments as of September 30, 2016, consists of the following:

| Primary Government: | |
|--------------------------------------|------------------|
| Cash on hand | \$ 1 805 |
| Deposits with financial institutions | 3 609 459 |
| Investments in LOGIC | 5 503 481 |
| Component Units: | |
| Deposits with financial institutions | 850 035 |
| Investments in LOGIC | 896 291 |
| TOTAL CASH AND INVESTMENTS | \$ 10 861 073 |

At September 30, 2016, the total deposits (as shown on the records of the bank) for the primary government and the component units amounted to \$9,221,994 and \$1,746,890, respectively. Deposits were with the contracted depository bank, Farmers State Bank, in a combination of interest and non-interest bearing accounts and interest bearing Certificates of Deposits. The deposits were fully secured at the balance sheet date by federal depository coverage and by pledged U. S. Government obligations or obligations of Texas and its agencies that have a market value of not less than the principal amount of deposits.

NOTE 3 - DETAILED NOTES ON ALL FUNDS - CONTINUED

Investments - The State Public Funds Investment Act (Government Code Chapter 2256) contains specific provisions in the areas of investment practices, management reports, and establishment of appropriate policies. It requires the City to adopt, implement, and publicize an investment policy. The investment policy must address requirements outlined by the Act. Management of the City believes it is in compliance with those requirements and local policies. The City's temporary investments consist of balances held by the Local Government Investment Cooperative (LOGIC). LOGIC is an AAA rated investment pool administered by First Southwest Asset Management, Inc and JP Morgan Chase.

As of September 30, 2016, the City had the following investments:

| INVESTMENT | FAIR | WEIGHTED AVERAGE |
|----------------------------|-----------------|-------------------|
| TYPE | VALUE | MATURITIES (DAYS) |
| Primary government - LOGIC | \$ 5 503 481 | 54 |
| Component units - LOGIC | 896 291 | 54 |
| | \$ 6 399 772 | |

Although Local Government Investment Cooperative had a weighted average maturity of 55 days, the City considers the holdings in these funds to have a one day weighted average maturity. This is due to the fact that the share position can usually be redeemed each day at the discretion of the shareholder, unless there has been a significant change in value.

Interest rate risk is the risk that changes in market interest rates and will adversely affect the fair value of an investment. Generally, the longer the maturity of an investment, the greater the sensitivity of its fair value. The City concentrates its investments on short-term investments in order to limit market risk caused by changes in interest rates. The maximum allowed maturity of any investment by the City is three years.

Custodial credit risk for deposits is the risk that, in the event of the failure of a depository financial institution, a government will not be able to recover its deposits. The City's depository fully collateralizes the City's deposits as outlined above.

B. Receivables

The City contracts with the Texas Department of Agriculture for various economic development programs. In accordance with certain terms of the contracts, funds have been loaned to specific entities at no interest. The City is liable to the State for repayment and the entity is liable to the City for repayment. The repayment of loans is accounted for as miscellaneous revenue and expenditures. The contracts are managed in a special revenue fund. At September 30, 2016 the City has two active loans. The following is a summary of transactions for the year ended September 30, 2016.

| | | LOANS | LOANS |
|-------------------------------|----|------------|---------------|
| | | RECEIVABLE | PAYABLE |
| Balance at October 1, 2015 | \$ | 226 010 | \$ 226 010 |

B. Pension Plan

Plan Description

The City of Center participates as one of 860 plans in the nontraditional, joint contributory, hybrid defined benefit pension plan administered by the Texas Municipal Retirement System (TMRS). TMRS is an agency created by the State of Texas and administered in accordance with the TMRS Act, Subtitle G, Title 8, Texas Government Code (the TMRS Act) as an agent multiple-employer retirement system for municipal employees in the State of Texas. The TMRS Act places the general administration and management of the System with a six-member Board of Trustees. Although the Governor, with the advice and consent of the Senate, appoints the Board, TMRS is not fiscally dependent on the State of Texas. TMRS's defined benefit pension plan is a tax-qualified plan under Section 401 (a) of the Internal Revenue Code. TMRS issues a publicly available comprehensive annual financial report (CAFR) that can be obtained at www.tmrs.com.

All eligible employees of the city are required to participate in TMRS.

Benefits Provided

TMRS provides retirement, disability, and death benefits. Benefit provisions are adopted by the governing body of the city, within the options available in the state statutes governing TMRS.

At retirement, the benefit is calculated as if the sum of the employee's contributions, with interest, and the city-financed monetary credits with interest were used to purchase an annuity. Members may choose to receive their retirement benefit in one of seven payments options. Members may also choose to receive a portion of their benefit as a Partial Lump Sum Distribution in an amount equal to 12, 24, or 36 monthly payments, which cannot exceed 75% of the member's deposits and interest.

Employees Covered by Benefit Terms:

At the December 31, 2015 valuation and measurement date, the following employees were covered by the benefit terms:

| Inactive employees or beneficiaries currently receiving benefits | 45 |
|--|-----|
| Inactive employees entitled to but not yet receiving benefits | 17 |
| Active employees | 71 |
| | 133 |

Contributions

The contribution rates for employees in TMRS are either 5%, 6%, or 7% of employee gross earnings, and the city matching percentages are either 100%, 150%, or 200%, both as adopted by the governing body of the city. Under the state law governing TMRS, the contribution rate for each city is determined annually by the actuary, using the Entry Age Normal (EAN) actuarial cost method. The actuarially determined rate is the estimated amount necessary to finance the cost of benefits earned by employees during the year, with an additional amount to finance any unfunded accrued liability.

NOTE 4 - OTHER INFORMATION - CONTINUED

Employees for the City of Center were required to contribute 7% of their annual gross earnings during the fiscal year. The contribution rates for the City of Center were 16.60% and 15.88% in calendar years 2014 and 2015, respectively. The City's contributions to TMRS for the year ended September 30, 2015 were \$357,412, and were equal to the required contribution.

Net Pension Liability

The City's Net Pension Liability (NPL) was measured as of December 31, 2015, and the Total Pension Liability (TPL) used to calculate the Net Pension Liability was determined by an actuarial valuation as of that date.

Actuarial Assumptions:

The Total Pension Liability in the December 31, 2015 actuarial valuation was determined using the following actuarial assumptions:

Inflation 2.5% per year

Overall payroll growth 3.50 to 10.5% per year (including inflation) Investment Rate of Return 6.75%, net of pension plan investment

expense, including inflation

Salary increases were based on a service-related table. Mortality rates for active members, retirees, and beneficiaries were based on the gender-distinct RP2000 Combined Healthy Mortality Table, with male rates multiplied by 109% and female rates multiplied by 103. The rates are projected on a fully generational basis by scale BB to account for future mortality improvements. For disabled annuitants, the gender-distinct RP2000 Disabled Retiree Mortality Table is used, with slight adjustments.

Actuarial assumptions used in the December 31, 2015, valuation were based on the results of actuarial experience studies. The experience study in TMRS was for the period January 1, 2006 through December 31, 2009, first used in the December 31, 2010 valuation. Healthy post-retirement mortality rates and annuity purchase rates were updated based on a Mortality Experience Investigation Study covering 2009 through 2011, and dated December 31, 2013. These assumptions were first used in the December 31, 2013 valuation, along with a change to the Entry Age Normal (EAN) actuarial cost method. Assumptions are reviewed annually. No additional changes were made for the 2015 valuation.

The long-term expected rate of return on pension plan investments is 6.75%. The pension plan's policy in regard to the allocation of invested assets is established and may be amended by the TMRS Board of Trustees. Plan assets are managed on a total return basis with an emphasis on both capital appreciation as well as the production of income, in order to satisfy the short-term and long-term funding needs of TMRS.

NOTE 4 - OTHER INFORMATION - CONTINUED

The long-term expected rate of return on pension plan investments was determined using a building-block method in which best estimate ranges of expected future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. The target allocation and best estimates of arithmetic real rates of return for each major asset class are summarized in the following table:

| | | LONG-TERM |
|-----------------------|------------|----------------|
| | | EXPECTED REAL |
| | TARGET | RATE OF RETURN |
| ASSET CLASS | ALLOCATION | (ARITHMETIC) |
| Domestic Equity | 17.5% | 4.80% |
| International Equity | 17.5% | 6.05% |
| Core Fixed Income | 30.0% | 1.50% |
| Non-Core Fixed Income | 10.0% | 3.50% |
| Real Return | 5.0% | 1.75% |
| Real Estate | 10.0% | 5.25% |
| Absolute Return | 5.0% | 4.25% |
| Private Equity | 5.0% | 8.50% |
| TOTAL | 100.0% | |
| | | |

Discount Rate

The discount rate used to measure the Total Pension Liability was 7.0%. The projection of cash flows used to determine the discount rate assumed that employee and employer contributions will be made at the rates specified in statute. Based on that assumption, the pension plan's Fiduciary Net Position was projected to be available to make all projected future benefit payments of current active and inactive employees. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the Total Pension Liability.

NOTE 4 - OTHER INFORMATION - CONTINUED

Sensitivity of the Net Pension Liability to Changes in the Discount Rate

The following presents the net pension liability of the City, calculated using the discount rate of 6.75%, as well as what the City's net pension liability would be if it were calculated using a discount rate that is 1-percentage-point lower (5.75%) or 1-percentage-point higher (7.75%) than the current rate:

| | 1% DECREASE | | 1% INCREASE |
|-----------------------|-----------------|-----------------|-----------------|
| | IN DISCOUNT | DISCOUNT | IN DISCOUNT |
| | RATE (5.75%) | RATE (6.75%) | RATE (7.75%) |
| Net pension liability | \$ 5 373 595 | \$ 3 372 883 | \$ 1 753 398 |

Pension Plan Fiduciary Net Position

Detailed information about the pension plan's Fiduciary Net Position is available in a separately-issued TMRS financial report. That report may be obtained on the Internet at www.tmrs.com.

Pension Expense and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions

For the year ended September 30, 2016, the city recognized pension expense of \$587,065.

At September 30, 2016, the city reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

| | | DEFERRED | | DEFERRED |
|----------------------------------|----|-------------|--------------|------------|
| | | OUTFLOWS OF | | INFLOWS OF |
| | | RESOURCES | | RESOURCES |
| Differences between expected and | _ | | - | |
| actual economic experience | \$ | 13 078 | \$ | 154 533 |
| Changes in actuarial assumptions | | - | | 32 136 |
| Difference between projected and | | | | |
| actual investment earnings | | 581 026 | | - |
| Contributions subsequent to the | | | | |
| measurement date | _ | 357 412 | _ | |
| TOTAL | \$ | 951 516 | \$ | 186 669 |
| | _ | | | |

\$357,412 reported as deferred outflows of resources related to pensions resulting from contributions subsequent to the measurement date will be recognized as a reduction of the net pension liability for the year ending September 30, 2016. Other amounts reported as deferred outflows and inflows of resources related to pensions will be recognized in pension expense as follows:

| | | PENSION |
|--------------|----|----------------|
| YEAR ENDED | | EXPENSE |
| DECEMBER 31, | _ | AMOUNT |
| 2017 | \$ | 109 926 |
| 2018 | | 109 926 |
| 2019 | | 109 926 |
| 2020 | | 84 405 |
| 2021 | | (6 748) |
| Thereafter | | - |
| Total | \$ | 407 435 |

NOTE 4 - OTHER INFORMATION - CONTINUED

C. Risk Management

The City is exposed to various risks of loss related to torts; theft of, damage to and destruction of assets; errors and omissions; and natural disasters. These risks are covered by commercial insurance purchased from independent third parties. The City provides employee health and accident insurance coverage with commercial insurance purchased from independent third parties. Coverages have not significantly decreased and settlements have not exceeded insurance coverage for each of the past three years.

NOTE 5 - PRIOR PERIOD ADJUSTMENT

The City has determined that construction in progress was recorded in governmental activities in prior year that was construction for the water and sewer fund. In the Government-Wide statements, construction in progress was overstated due to the inclusion of the asset transaction and the Proprietary Statements were understated. An adjustment occurred as a result of the reclassification of the asset to the correct fund. The restatements had a corresponding effect on net position; the governmental activities net position decreased by \$58,540 and the water and sewer business-type activities increased by \$58,540.

SUPPLEMENTARY INFORMATION

NONMAJOR GOVERNMENTAL FUNDS

Special Revenue Funds

Special revenue funds are used to account for specific revenues that are legally restricted to expenditures for particular purposes.

<u>Texas Capital Fund - Grant Repayment Funds</u> - To account revenues and expenditures related to Texas Department of Agriculture loans.

Court Technology and Security Fund - To account for certain fees assessed on fines.

Hotel - Motel Fund - To account for hotel-motel taxes and related expenditures.

<u>Civic Center Fund</u> - To account for the construction of the civic center for activity related to civic center capital asset improvements.

<u>Tax Increment Financing Fund</u> - To account for activities related to the tax increment finance district.

<u>Industrial Development Fund</u> - To account for activity related to industrial development initiatives.

Police Department Forfeiture Fund - To account for forfeited funds remitted to the police department.

Logic Park Fund - To account for the construction of park facilities.

Recreation Fund – To account for recreational activities for the citizens of Center.

Other Grants - To account for revenues and expenditures applicable to Grants.

<u>Airport Construction Fund</u> – To account for construction and activity related to airport capital asset improvements.

<u>TCF Center Motors Fund</u> – To account for grant for renovation of infrastructure related to Center Motor Company.

<u>Street Improvement Fund</u> – To account for contributions of the Street Economic Development Corporation for city street improvements.

Debt Service Fund

<u>Debt Service Fund</u> - To account for the accumulation of monies for the payment of general obligation debt.

Permanent Funds

<u>Cemetery Endowment Fund</u> - This fund is used to account for principal trust amounts received and related interest income. The interest portion of the trust can be used to maintain the Fairview cemetery.

<u>Animal Welfare Fund</u> - This fund is used to account for principal trust amounts received and related interest income. The interest portion of the trust can be used to maintain Animal Welfare.

COMPLIANCE SECTION

INDEPENDENT AUDITORS' REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH GOVERNMENT AUDITING STANDARDS

Honorable Mayor and City Council City of Center, Texas

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of the governmental activities, the business-type activities, the aggregate discretely presented component units, each major fund, and the aggregate remaining fund information of City of Center, Texas, as of and for the year ended September 30, 2016, and the related notes to the financial statements, which collectively comprise City of Center, Texas' basic financial statements, and have issued our report thereon dated March 27, 2017.

Internal Control Over Financial Reporting

In planning and performing our audit of the financial statements, we considered City of Center, Texas' internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of City of Center, Texas' internal control. Accordingly, we do not express an opinion on the effectiveness of City of Center, Texas' internal control.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A material weakness is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis. A significant deficiency is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or, significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether City of Center, Texas' financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.
