INDEPENDENT AUDITORS' REPORT

Honorable Mayor and City Council City of Center Center, Texas

We have audited the accompanying financial statements of the governmental activities, the business-type activities, the aggregate discretely presented component units, each major fund, and the aggregate remaining fund information of the City of Center, Texas, as of and for the year ended September 30, 2019, and the related notes to the financial statements, which collectively comprise the City's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial statements audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Opinions

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, the aggregate discretely presented component units, each major fund, and the aggregate remaining fund information of the City of Center, Texas, as of September 30, 2019, and the respective changes in financial position and, where applicable, cash flows thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis, budgetary comparison information, and the schedule of changes in net pension and OPEB liabilities and related ratios and schedule of contributions be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Other Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the City of Center, Texas' basic financial statements. The introductory section, the supplementary information section, and statistical section are presented for purposes of additional analysis and are not a required part of the basic financial statements.

The supplementary information section and the compliance section are the responsibility of management and were derived from and relate directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, these sections are fairly stated, in all material respects, in relation to the basic financial statements as a whole.

The introductory and statistical sections have not been subjected to the auditing procedures applied in the audit of the basic financial statements and, accordingly, we do not express an opinion or provide any assurance on them.

Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued our report dated April 13, 2020, on our consideration of the City's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering City's internal control over financial reporting and compliance.

Lufkin, Texas April 13, 2020 CERTIFIED PUBLIC ACCOUNTANTS

Management's Discussion and Analysis

As management of the City of Center, Texas, we offer readers of the City of Center's financial statements this narrative overview and analysis of the financial activities of the City of Center (City) for the fiscal year ended September 30, 2019.

Financial Highlights

- The assets and deferred outflows of the City exceeded its liabilities and deferred inflows at the close of the most recent fiscal year resulting in a total net position of \$28,837,303 which is an increase of \$697,919 (net position).
- Government activities change in net position increased \$967,110 to \$16,819,796 mostly from additional capital assets.
- The City's governmental funds reported combined ending fund balances of \$7,110,597 an increase of \$4,453,447 from the prior year of \$2,657,150.
- The fund balance for the general fund was \$1,774,351 or 36.0% of total general fund expenditures and increased \$46,359 during this fiscal year.
- The Water and Sewer Fund operating revenues exceeded expenses resulting in operating income of \$349,430 and the fund decreased net position by \$206,754 to \$11,631,798.
- Combined Business Activities decreased Net Position by \$269,191.
- The combined non-major governmental funds experienced an increase in fund balance of \$212,836 to \$1,116,790 primarily in Debt Service and Hotel/Motel Funds.
- The 4B Street Improvements for Economic Development is shown as a component unit of the City. The annual street program is recorded as an expense in the Governmental Funds so that the asset can be recorded.

Overview of the Financial Statements

This discussion and analysis are intended to serve as an introduction to the City of Center's basic financial statements. The City's basic financial statements comprise three components: 1) government-wide financial statements, 2) fund financial statements, and 3) notes to the financial statements. This report also contains other supplemental information in addition to the basic financial statements themselves.

Government-Wide Financial Statements. The *government-wide financial statements* are designed to provide readers with a broad overview of the City's finances, in a manner similar to a private-sector business.

The *statement of net position* presents information on all of the City's assets deferred outflows and liabilities and deferred inflows, with the difference between the two reported as *net position*. Over time, increases or decreases in net position may serve as a useful indicator of whether the financial position of the City is improving or deteriorating.

The statement of activities presents information showing how the government's net position changed during the most recent fiscal year. All changes in net position are reported as soon as the underlying event giving rise to the change occurs, regardless of the timing of related cash flows. Thus, revenues and expenses are reported in this statement for some items that will only result in cash flows in future fiscal periods (e.g., uncollected taxes and earned but unused vacation leave).

Both of the government-wide financial statements distinguish functions of the City that are principally supported by taxes and intergovernmental revenues (governmental activities) from other functions that are intended to recover all or a significant portion of their costs through user fees and charges (business-type activities). The governmental activities of the City include general government, public safety, culture and recreation, planning and community development, sanitation and public facilities. The business-type activities of the City include water and sewer utility services.

Fund Financial Statements. A *fund* is a grouping of related accounts that is used to maintain control over resources that have been segregated for specific activities or objectives. The City, like other state and local governments, uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements. All of the funds of the City of Center can be divided into two categories: governmental funds or proprietary funds.

Governmental Funds. Governmental funds are used to account for essentially the same functions reported as *governmental activities* in the government-wide financial statements. However, unlike the government-wide financial statements focus on *near-term inflows and outflows of spendable resources*, as well as on *balances of spendable resources* available at the end of the fiscal year. Such information may be useful in evaluating a government's near-term financing requirements.

Because the focus of governmental funds is narrower than that of the government-wide financial statements, it is useful to compare the information presented for *governmental funds* with similar information presented for *governmental activities* in the government-wide financial statements. By doing so, readers may better understand the long-term impact of the government's near-term financing decisions. Both the governmental fund balance sheet and the governmental fund statement of revenues, expenditures, and changes in fund balances provide a reconciliation to facilitate this comparison between *governmental funds* and *governmental activities*.

The City of Center maintains eighteen individual governmental funds. Information is presented separately in the governmental fund balance sheet and in the governmental fund statement of revenues, expenditures, and changes in fund balance. Data from the other governmental funds are combined into a single, aggregated presentation. Individual fund data for each of the non-major governmental funds, including the Debt Service Fund, is provided in the form of *combining statements* elsewhere in this report.

The City adopts an annual appropriated budget for its General Fund, Debt Service Fund, and special revenue funds - Trust Funds. A budgetary comparison statement has been provided for the General Fund to demonstrate compliance with budget.

Proprietary Funds. The City maintains two proprietary fund. Enterprise funds are used to report the same functions presented as business-type activities in the government-wide financial statements. The City uses an enterprise fund to account for its Water and Sewer utility and Sanitation services Internal service funds are an accounting device used to accumulate and allocate costs internally among the City's various functions.

Proprietary funds provide the same type of information as the government-wide financial statements, only in more detail. The proprietary fund financial statements provide information for the water and sewer utility and sanitation services, which are considered to be a major funds of the City of Center.

Notes to the Financial Statements. The notes provide additional information that is essential to a full understanding of the data provided in the government-wide and fund financial statements.

Other Information. In addition to the basic financial statements and accompanying notes, this report also presents certain required supplementary information concerning the City of Center's progress in funding its obligations to provide retirement benefits to its employees. This required supplementary information can be found after the notes to financial statements of this report.

The combining statements referred to earlier in connection with non-major governmental funds are presented immediately following the required supplementary information. Combining and individual fund statements and schedules can be found in this report.

Government-Wide Financial Analysis

As noted earlier, net position may serve over time as a useful indicator of a government's financial position. In the case of the City, assets and deferred outflows exceeded liabilities and deferred inflows by \$28,837,303 at the close of fiscal year 2019. This represents an increase of \$697,919 from the 2018 net position of \$28,139,384 after the prior period adjustment.

By far the largest portion of the City's assets (\$19,500,338), 68%, reflects its net investment in capital assets (e.g., land, buildings, vehicles and equipment), less the outstanding balance of related debt used to acquire those assets. The City uses these capital assets to provide services to citizens; consequently, these assets are not available for future spending. Although the City of Center's investment in its capital assets is reported net of related debt, it should be noted that the resources needed to repay this debt must be provided from other sources, since the capital assets themselves cannot be used to liquidate these liabilities. This year's net position values indicate increases because of acquisition and construction of assets through the Capital Projects Fund.

Governmental Activities. Governmental activities increased the City of Center's net position by \$967,110. Key elements of this increase are as follows:

- Governmental Fund expenditures exceeded revenues by \$589,424. This is offset by governmental fund transfer of \$1,556,534. This is mostly from transfers from the Utility and Sanitation Funds and internal service funds;
- Governmental Expenses increased \$363,764 from prior year expenses;

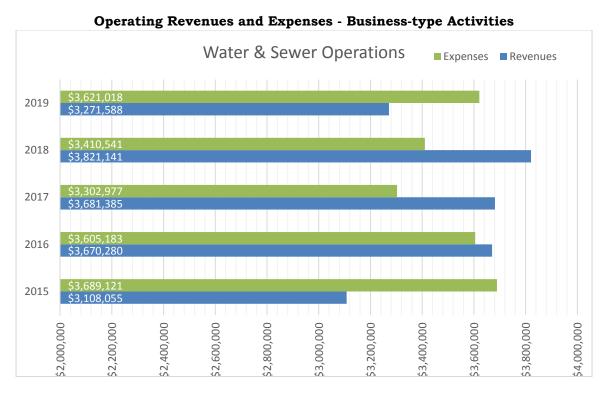

Revenues by Source - All Governmental Activities (reference page 19)

Proprietary Funds. The City of Center's proprietary funds provide the same type of information found in the government-wide financial statements for business-type activities but in more detail.

Business-Type Activities. Business-type activities decreased the total government's net position by \$269,191. Key elements of this change are as follows:

- Operating revenues increased \$20,194 to \$5,663,936 from \$5,643,742. This is a result of revenue increases in Sanitation of \$547 and revenue decrease in Water-Sewer of \$200,123.
- Operating expenses increased \$171,913 to \$4,848,302 from \$4,676,389. Water-Sewer expenses decreased \$138,953 while Sanitation expenses increased \$192,228.
- Operating expenses exceeded revenues resulting in Operating Loss of \$(269,191).
- Including non-operating expenses, primarily costs of debt and transfers, Change in Net Position is \$(269,191). Transfers includes transfers to the General Fund, Debt Fund, Technology Fund, and Capital Improvement Fund.

As a component of Total Net Position, the Unrestricted Net Position of the Proprietary Funds at the end of the current fiscal year is \$865,681. Other factors concerning these funds have been addressed in the discussion of the City's business-type activities.

Internal Service Funds. The City operates two Internal Service Funds: the Technology Fund and Equipment Replacement Fund. The Technology Fund was fully capitalized in FY 2018 by transfers from the General and Utility Funds. The Equipment Replacement Fund was created in FY 2018 and will be fully capitalized in FY 2019. The net position for the Equipment Replacement Fund increased by \$90,651 from \$427,616 to \$518,267. However, the Fund had a reduction in cash of \$15,885, bringing its cash at the end of the year to \$138,764. This is a result of the Fund using cash to acquire equipment assets.

Financial Analysis of the Government's Funds

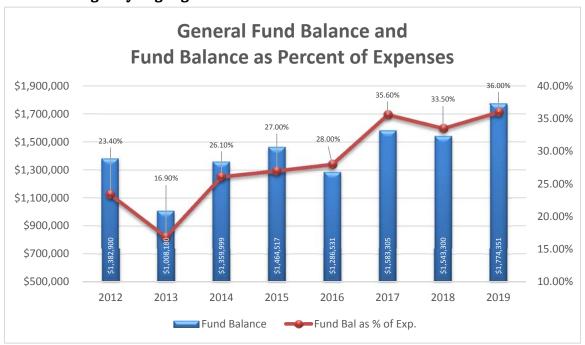

As noted earlier, the City of Center uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements.

Governmental Funds. The focus of the City's *governmental funds* is to provide information on nearterm inflows, outflows, and balances of *spendable* resources. Such information is useful in assessing the City's financing requirements. In particular, *unreserved fund* balance may serve as a useful measure of a government's net resources available for spending at the end of the fiscal year.

As of the end of the current fiscal year, the City of Center's governmental funds reported combined ending fund balances of \$7,110,597, an increase of \$4,453,447 from the prior year, excluding the prior period adjustment. Approximately 25% of this total amount, \$1,774,351, constitutes *unrestricted fund balance*, which is available for spending at the government's discretion. The remaining 75% of fund balance is *restricted* to indicate that it is not available for spending because it has already been committed and dedicated to 1) pay debt service, 2) for perpetual trust 3) for capital projects or 4) grant projects. See page 18 in the report for more detail about the fund balance allocation.

The general fund is the chief operating fund of the City of Center. At the end of the current fiscal year, total general fund balance was \$1,774,351. The fund balance of the City's general fund increased by \$46,359 during the current fiscal year. As a measure of the general fund's liquidity, it may be useful to compare total fund balance to total fund expenditures. Total fund balance represents 36.0% of total general fund operational expenditures. The City Council established a minimum fund balance policy of 25% of annual expenditures.

General Fund Budgetary Highlights

The General Fund accounts for the primary operations of the City and a budget comparison is provided.

A review of the final amended budget compared to actual revenues/expenditures presents a number of variances. Total revenues increased from the budget by \$248,707. Total expenditures decreased from the budget by \$72,832. After transfers to and from other funds, the general fund experienced an increase in the fund balance of \$46,359.

Capital Asset and Debt Administration

Capital Assets. The City of Center's investment in capital assets for its governmental and business-type activities amounts to \$36,554,734 (net of accumulated depreciation) at the end of the current fiscal year increasing from last year's amount of \$37,227,104. This investment in capital assets includes land, buildings, improvements, vehicles and equipment. Due to the size of the City, past asset valuations for major infrastructure (streets, bridges, drainage, etc.) are not required to comply with reporting requirements, however beginning in fiscal year 2004, the City began prospectively accumulating values for these major capital assets.

Long-Term Debt. At the end of the current fiscal year, the City of Center had total bonded debt outstanding of \$16,420,000, an increase from last year's total bonded debt of \$10,945,000. All is backed by the full faith and credit of the government.

Notes Payable. Notes payable includes a note by the City's Tax Increment Reinvestment Zone Fund to the Center Economic Development Corporation in 2011.

The City of Center's debt issuance rating by Moody's was upgraded in 2007 from a rating of "Baa2" to a rating of "A2". This pertains to the current debt issuances for general obligation and any other bonded debt. This rating was reaffirmed by Moody's in 2018.

As a Home Rule City, the City of Center, Texas is not limited by law in the amount of debt it may issue. However, the City's Debt Management Policy limits total ad valorem supported outstanding debt to 4% of the taxable base. Utility Fund debt service is limited to 20% of Utility Fund expenditures.

Additional information on the City's long-term debt can be found in note 3. D. of this report.

Economic Factors and Next Year's Budgets and Rates

• The unemployment rate as of August 2019 for Shelby County, according to Texas Workforce Commission statistics, is 4.3%. The unemployment rates for August 2019, according to the Texas Workforce Commission, are 3.6% for the State of Texas and 4.1% for the Deep East Texas Region.

- The City's total state sales tax receipts, including the 1¼% for governmental purposes and the two Economic Development Corporations, for the current fiscal year, totaled \$3,353,326 an increase of \$154,139 or 4.8% from the previous year (\$3,199,187). This primarily reflects a return of oil and gas industry activities in the region.
- Economic trends in the area are stabilizing relative to state and national indices and trends.

All of these factors were considered in preparing the City of Center's budget for the 2020 fiscal year.

Requests for Information

This financial report is designed to provide a general overview of the City of Center's finances for all those with an interest in the government's finances. Questions concerning any of the information provided in this report or requests for additional financial information should be addressed to the City Secretary, P. O. Box 1744, 617 Tenaha Street, City of Center, Texas, 75935-1744.

CITY OF CENTER, TEXAS RECONCILIATION OF THE STATEMENT OF REVENUES, EXPENDITURES AND CHANGES IN FUND BALANCES OF GOVERNMENTAL FUNDS TO THE STATEMENT OF ACTIVITIES Year Ended September 30, 2019

Amounts Reported for Governmental Activities in the Statement of Activities are Different Because:

Net change in fund balances - Total governmental funds	\$ 4 453 447
Governmental funds report capital outlays as expenditures. However, in the statement of activities the cost of those assets is allocated over their estimated useful lives and reported as depreciation expense. This is the	
amount by which capital depreciation exceeded outlays in the current period.	(297 391)
Revenues in the statement of activities that do not provide current financial resources are not reported as revenues in the funds.	(52 774)
Internal service net revenues are reported with governmental activities and the expenses not recovered through user changes are allocated to the participating funds.	129 486
The issuance of long-term debt (e.g., bonds, notes, and pension and other post employment benefits) financial resources to governmental funds, while the repayment of the principal of long-term debt consumes the current financial resources of governmental funds. Also, governmental funds report the effect of issuance costs, premiums, discounts, and similar items when debt is first issued, whereas, these amounts are deferred and amortized in the statement of activities. This amount is the net effect of these differences in the treatment of long-term debts and other related items.	(3 265 658)
of long-term debts and other related items.	(3 403 036)
CHANGE IN NET POSITION OF GOVERNMENTAL ACTIVITIES	\$ 967 110

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The City of Center, Texas was incorporated in 1900. The City operates under a Home Rule Charter adopted April 7, 1984 under Section 5, Article XI of the Texas Constitution as a Council-Manager form of government under the provisions of the charter and the V.T.C.A., Local Government Code.

The accounting policies of the City of Center, Texas conform to generally accepted accounting principles as applicable to governments. The City applies all relevant Governmental Accounting Standards Board (GASB) pronouncements. Proprietary funds apply Financial Accounting Standards Board (FASB) pronouncements and Accounting Principles Board (APB) opinions issued on or before November 30, 1989, unless those pronouncements conflict with or contradict GASB pronouncements, in which case, GASB prevails. The following is a summary of the more significant policies:

A. Reporting Entity:

The accompanying financial statements present the government and its component units, entities for which the government is considered to be financially accountable. Discretely presented component units are reported in a separate column in government-wide financial statements (see note below for description) to emphasize that they are legally separate from the government.

Individual Component Unit Disclosures:

Discretely Presented Component Units:

<u>The City of Center Economic Development Corporation</u> - Established in 1994, the Corporation is a 4A nonprofit industrial development corporation specifically governed by the Development Corporation Act. The purpose of the Corporation is to promote, assist, and enhance economic development. The Corporation is governed by a Board of Directors appointed by the City Council.

Complete financial statements of the Corporation can be obtained from: The City of Center Economic Development Corporation, 617 Tenaha Street, Center, Texas.

<u>The City of Center Street Improvements for Economic Development Corporation</u> - Established in 1996, the Corporation is a 4B nonprofit industrial development corporation specifically governed by the Development Corporation Act. The purpose of the Corporation is to promote, assist and enhance economic development by undertaking projects of street and road and related improvements. The Corporation is governed by a Board of Directors appointed by the City Council.

Complete financial statements of the Corporation can be obtained from: The City of Center Street Improvements for Economic Development Corporation, 617 Tenaha Street, Center, Texas.

<u>The City of Center Local Government Corporation</u> - Established in 2018 to hold and manage the assets of Parker Place Subdivision. The City acquired the remaining subdivision lots in 2018 after reaching a settlement with the owner, and repayment of the Housing Infrastructure Fund (HIF) grant. The City is working to sell the lots to builders.

B. Government-Wide and Fund Financial Statements:

The government-wide financial statements (i.e., the statement of net position and the statement of activities) report information on all of the nonfiduciary activities of the primary government and its component units. For the most part, the effect of interfund activity has been removed from these statements. *Governmental activities*, which normally are supported by taxes and intergovernmental revenues, are reported separately from *business-type activities*, which rely to a significant extent on fees and charges for support. Likewise, the *primary government* is reported separately from certain legally separate *component units* for which the primary government is financially accountable.

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - CONTINUED

The statement of activities demonstrates the degree to which the direct expenses of a given function or segment are offset by program revenue. *Direct expenses* are those that are clearly identifiable with a specific function or segment. *Program revenues* include (1) charges to customers or applicants who purchase, use, or directly benefit from goods, services, or privileges provided by a given function or segment and (2) grants and contributions that are restricted to meeting the operational or capital requirements of a particular function or segment. Taxes and other items not properly included among program revenues are reported instead as *general revenues*.

Separate financial statements are provided for governmental funds and proprietary funds. Major individual governmental funds and major individual enterprise funds are reported as separate columns in the fund financial statements.

C. Measurement Focus, Basis of Accounting, and Financial Statement Presentation:

The government-wide financial statements are reported using the *economic resources* measurement focus and the accrual basis of accounting, as are the proprietary fund financial statements. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. Property taxes are recognized as revenues in the year for which they are levied. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met.

Governmental fund financial statements are reported using the *current financial resources* measurement focus and the modified accrual basis of accounting. Revenues are recognized as soon as they are both measurable and available. Revenues are considered to be available when they are collectible within the current period or soon enough thereafter to pay liabilities of the current period. For this purpose, the government considers revenues to be available if they are collected within 60 days of the end of the current fiscal period. Expenditures generally are recorded when a liability is incurred, as under accrual accounting. However, debt service expenditures, as well as expenditures related to compensated absences and claims and judgments, are recorded only when payment is due.

Property taxes, franchise taxes, licenses and interest associated with the current fiscal period are all considered to be susceptible to accrual and so have been recognized as revenues of the current fiscal period. Only the portion of special assessments receivable due within the current fiscal period is considered to be susceptible to accrual as revenue of the current period. All other revenue items are considered to be measurable and available only when cash is received by the government.

The government reports the following governmental funds:

<u>General Fund</u> - The general fund is the primary operating fund of the City. It is used to account for all financial resources except those required to be accounted for in another fund.

<u>Capital Project Fund</u> - The capital project fund is used to account for monies earmarked from bond activities.

<u>Special Revenue Funds</u> - Special revenue funds are used to account for specific revenues that are legally restricted to expenditures for particular purposes.

<u>Debt Service Fund</u> - Debt service funds are used to account for the accumulation of resources for, and the payment of, principal, interest, and related costs on long-term general obligation debt of governmental funds.

<u>Permanent Fund</u> - This fund is used to account for assets held by the City pursuant to a trust agreement. The principal portion of this fund must remain intact, but the earnings may be used to achieve the objectives of the fund.

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - CONTINUED

The government reports the following proprietary funds:

<u>Water and Sewer Fund</u> - This fund accounts for the provision of water and sewer services to the residents of the City and some residents of the County. All activities necessary to provide such services are accounted for in this fund, including, but not limited to, administration, operations, maintenance, financing and related debt services, and billing and collection.

<u>Sanitation Fund</u> - This fund accounts for the provision of sanitation services to the residents of the City and some residents of the County. All activities necessary to provide such services are accounted for in this fund, including, but not limited to, administration, operations, maintenance, financing and related debt services, and billing and collection.

<u>Equipment Replacement Fund</u> - This fund provides each department of the City an internal system to purchase capital assets. All such activities necessary to provide such services are accounted for in this fund.

<u>Technology Fund</u> - This fund provides each department of the City an internal system to acquire technology. All such activities necessary to provide such services are accounted for in this fund.

Private-sector standards of accounting and financial reporting issued prior to December 1, 1989, generally are followed in both the government-wide and proprietary fund financial statements to the extent that those standards do not conflict with or contradict guidance of the Governmental Accounting Standards Board. Governments also have the *option* of following subsequent private-sector guidance for their business-type activities and enterprise funds, subject to this same limitation. The government has elected not to follow subsequent private-sector guidance.

As a general rule, the effect of interfund activity has been eliminated from the government-wide financial statements. Exceptions to this general rule are payments-in-lieu of taxes and other charges between the government's water and sewer function and various other functions of the government. Elimination of these charges would distort the direct costs and program revenues reported for the various functions concerned.

Amounts reported as *program revenues* include (1) charges to customers or applicants for goods, services, or privileges provided, (2) operating grants and contributions, and (3) capital grants and contributions, including special assessments. Internally dedicated resources are reported as *general revenues* rather than as program revenues. Likewise, general revenues include all taxes.

Proprietary funds distinguish *operating* revenues and expenses from *nonoperating* items. Operating revenues and expenses generally result from providing services and producing and delivering goods in connection with a proprietary fund's principal ongoing operations. The principal operating revenues of the water and sewer enterprise fund are charges to customers for sales and services. The water and sewer fund also recognizes as operating revenue the portion of tap fees intended to recover the cost of connecting new customers to the system. Operating expenses for enterprise funds include the cost of sales and services, administrative expenses, and depreciation on capital assets. All revenues and expenses not meeting this definition are reported as nonoperating revenues and expenses.

When both restricted and unrestricted resources are available for use, it is the government's policy to use restricted resources first, then unrestricted resources as they are needed.

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - CONTINUED

D. Assets, Deferred Outflows, Liabilities, Deferred Inflows and Net Position

1. Deposits and Investments:

The government's cash and cash equivalents are considered to be cash on hand, demand deposits, and short-term investments with original maturities of three months or less from the date of acquisition.

The City's investment policies are governed by state statutes and city ordinances. Permissible investments include direct obligations of the U. S. Government, certificates of deposit and savings accounts. Collateral is required for demand deposits and certificates of deposits of all amounts not covered by federal deposit insurance.

The Center Economic Development Corporation and the Center Street Improvements for Economic Development are authorized by their governing board to invest in obligations of the U. S. Government, certificates of deposit and savings accounts.

Investments for the government, as well as for its component units, are reported at fair value. Collateral is required for demand deposits and certificates of deposits of all amounts not covered by federal deposit insurance.

2. Receivables and Payables:

Activity between funds that are representative of lending/borrowing arrangements outstanding at the end of the fiscal year are referred to as either "due to/from other funds" (i.e., the current portion of interfund loans) or "advances to/from other funds" (i.e., the non-current portion of interfund loans). All other outstanding balances between funds are reported as "due to/from other funds". Any residual balances outstanding between the governmental activities and business-type activities are reported in the government-wide financial statements as "internal balances".

All trade and property tax receivables are shown net of the allowance for uncollectibles. Allowances for uncollectible accounts receivable are based upon historical trends and the periodic aging of accounts receivable.

Property taxes are levied on October 1, attach as an enforceable lien on property on January 1, and become delinquent on June 30 of every fiscal year.

3. Inventories and Prepaid Items:

All inventories are valued at cost using the first-in/first out (FIFO) method.

Certain payments to vendors reflect costs applicable to future accounting periods and are recorded as prepaid items in both government-wide and fund financial statements.

4. Restricted Assets:

Restricted assets include cash and investments for the proprietary funds that are legally restricted as to their use. The primary restricted assets are related to debt retirement, renewal and replacement, and construction activity of the Water and Sewer enterprise fund.

5. Capital Assets:

All purchased capital assets are valued at cost where historical records are available and estimated historical cost where no historical records exist. Donated capital assets are valued at their estimated fair market value on the date received or placed into service. Assets contributed by the general government to proprietary funds are valued at the lesser of their fair market value at the date of the transfer or original cost.

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - CONTINUED

The costs of normal maintenance and repairs that do not add to the value of the asset or materially extend assets lives are not capitalized.

For implementation of GASB 34 requirements for capital assets the City established the following categories and thresholds:

Land/land improvement	Any Amount
Buildings/building improvements	\$ 25 000
Facilities and other improvements	\$ 25 000
Infrastructure	\$ 25 000
Personal property	\$ 5 000
Leasehold improvements	\$ 25 000

Interest is capitalized on proprietary fund assets acquired with tax-exempt debt. The amount of interest to be capitalized is calculated by offsetting interest expense incurred from the date of the borrowing until completion of the project with interest earned on invested proceeds over the same period.

Depreciation is provided over the estimated useful lives using the straight-line method. The estimated useful lives are as follows:

Structures and water and sewer systems	10 to 50 years
Infrastructure	10 to 30 years
Transportation and other equipment	3 to 20 years

6. Compensated Absences:

The City accounts for expenditures related to sick pay when such payments are made to employees as amounts do not vest. The City accounts for all material liabilities and expenditures related to vacation pay during the fiscal year in which such benefits accrue. Employees are required to take vacation time if at all possible, and vacation time will not be allowed to be accrued more than 160 hours on an anniversary date. Sick leave can be accumulated up to 320 hours.

The City has determined that the current portion of the accrued expense for compensated absences cannot be reasonably estimated. Therefore, the total accrued expense for compensated absences is recorded as long-term debt in the financial statements.

7. Long-Term Obligations:

In the government-wide financial statements and proprietary fund types fund financial statements, long-term debt and other long-term obligations are reported as liabilities in the applicable governmental activities, business-type activities, or proprietary fund type statement of net position.

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - CONTINUED

8. Fund Equity:

GASB Statement No. 54, "Fund Balance Reporting and Governmental Fund Type Definitions" provides more clearly defined fund balance categories to make the nature and extent of the constraints placed on a government's fund balances more transparent. The following classifications describe the relative strength of the spending constraints:

- Nonspendable Fund Balance Amounts that are not in spendable form (such as inventory) or are required to be maintained intact.
- Restricted Fund Balance Amounts constrained to specific purposes by their providers (such as grantors, bondholders, and higher levels of government), through constitutional provisions, or by enabling legislation.
- Committed Fund Balance Amounts constrained to specific purposes by the City itself, using its highest level of decision-making authority (i.e., City Council).
 To be reported as committed, amounts cannot be used for any other purpose unless the City takes the same highest level action to remove or change the constraint.
- Assigned Fund Balance Amounts the City intends to use for a specific purpose.
 Intent can be expressed by the City Council or by an official or body to which the City Council delegates the authority.
- Unassigned Fund Balance Amounts that are available for any purpose. Positive amounts are reported only in the general fund.

The City Council establishes (and modifies or rescinds) fund balance commitments by passage of an ordinance or resolution. This is typically done through adoption and amendment of the budget. A fund balance commitment is further indicated in the budget document as a designation or commitment of the fund (such as for special incentives). Assigned fund balance is established by City Council through adoption or amendment of the budget as intended for specific purpose (such as the purchase of fixed assets, construction, debt service, or for other purposes).

9. Deferred Outflows/Inflows of Resources:

In addition to assets, the statement of financial position will sometimes report a separate section for deferred outflows of resources. This separate financial statement element, deferred outflows of resources, represents a consumption of net position or fund balance that applies to a future period(s) and thus, will not be recognized as an outflow or resources (expense/expenditure) until then.

In addition to liabilities, the statement of financial position will sometimes report a separate section for deferred inflows of resources. This separate financial statement element, deferred inflows of resources, represents an acquisition of net position or fund balance that applies to a future period(s) and so will not be recognized as an inflow of resources (revenue) until that time.

10. Use of Estimates:

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results could differ from those estimates.

11. Subsequent Events:

Management has evaluated subsequent events through April 13, 2020, the date the financial statements were available to be issued.

NOTE 2 - STEWARDSHIP, COMPLIANCE AND ACCOUNTABILITY

A. Budgets and Budgetary Accounting:

The City follows these procedures in establishing the budgetary data reflected in the financial statements:

- (1) The City Manager submits to the City Council a proposed operating budget for the fiscal year. The operating budget includes proposed expenditures and the means of financing them.
- (2) Public hearings are conducted to obtain taxpayer comments.
- (3) The budget is legally enacted through passage of an ordinance.
- (4) The City Manager is authorized by the City Council to transfer budgeted amounts within departments of any fund; however, any revisions that alter the total expenditures of any fund are approved by the City Council.
- (5) Formal budgetary integration is employed as a management control device during the year for the General Fund.
- (6) The budget for the General Fund is adopted on a basis consistent with generally accepted accounting principles (GAAP).

B. City Fund Balance Policy:

The City of Center recognizes the importance of maintaining an appropriate level of Unassigned Fund Balance. After evaluating the City's operating characteristics, diversity of tax base, reliability of non-property tax revenue sources, working capital needs, impact on bond rating, State and local economic outlooks, emergency and disaster risk, and other contingent issues, the City establishes the following goals regarding the Unassigned Fund Balance of the General Fund for the City of Center, Texas.

Fund balance will be calculated by taking the total General Fund expenditure budget and deducting Airport departments. The rationale is this department receive a commensurate amount of funding from its own operations. The City now receives as much revenue from airport fuel sales to make the Center Municipal Airport self-sustaining.

The goal for this policy is that the City would retain in reserves a minimum of 20% and 25% optimally. This equates to 45 to 90 days of operating reserves which would allow the City to continue providing services without receiving additional funding.

Once the City achieves its goal of an appropriate level of Unassigned Fund Balance, any excess funds may be utilized for other municipal fiscal purposes, including without limitation, additional capital improvement needs or tax rate stabilization or reduction purposes. For example, by applying excess fund balances towards payment of capital improvement expenses, the City will reduce the need to incur long-term debt and will avoid creating an operating fund gap for subsequent fiscal years.

This policy has been adopted by the City to recognize the financial importance of a stable and sufficient level of the Unassigned Fund Balance. However, the City, reserves the right to appropriate funds from the Unassigned Fund Balance for emergencies and other unanticipated requirements the City believes to be in the best interest of the City.

NOTE 2 - STEWARDSHIP, COMPLIANCE AND ACCOUNTABILITY - CONTINUED

FUND BALANCE ANALYSIS

				2019
Beginning fund balance			\$	1 727 992
Total general fund revenues and transfers				5 209 332
Total general fund expenditures and transfers				$(5\ 162\ 973)$
ENDING GENERAL FUND BALANCE			\$	1 774 351
Airport expense			\$	(142962)

NOTE 3 - DETAILED NOTES ON ALL FUNDS

A. Deposits and Investments

Cash and investments as of September 30, consists of the following:

Primary Government:		
Unrestricted cash and investments	\$	8 714 967
Restricted cash and investments		2 727 864
Component Units:		
Cash and investments	_	2 916 797
TOTAL CASH AND INVESTMENTS	\$	14 359 628
	-	
Primary Government:		
Cash on hand	\$	(1 179)
Deposits with financial institutions		668 981
Investments in LOGIC		10 775 029
Component Units:		
Deposits with financial institutions		40 213
Investments in LOGIC		2 876 584
TOTAL CASH AND INVESTMENTS	\$	14 359 628

NOTE 3 - DETAILED NOTES ON ALL FUNDS - CONTINUED

At September 30, the total deposits (as shown on the records of the bank) for the primary government and the component units amounted to \$711,690 and \$40,213, respectively. Deposits were with the contracted depository bank, Farmers State Bank, in a combination of interest and non-interest bearing accounts and interest bearing Certificates of Deposits. The deposits were fully secured at the balance sheet date by federal depository coverage and by pledged U. S. Government obligations or obligations of Texas and its agencies that have a market value of not less than the principal amount of deposits.

Investments - The State Public Funds Investment Act (Government Code Chapter 2256) contains specific provisions in the areas of investment practices, management reports, and establishment of appropriate policies. It requires the City to adopt, implement, and publicize an investment policy. The investment policy must address requirements outlined by the Act. Management of the City believes it is in compliance with those requirements and local policies. The City's temporary investments consist of balances held by the Local Government Investment Cooperative (LOGIC). LOGIC is an AAA rated investment pool administered by First Southwest Asset Management, Inc. and JP Morgan Chase.

As of September 30, the City had the following investments:

INVESTMENT	FAIR	WEIGHTED AVERAGE
TYPE	VALUE	MATURITIES (DAYS)
Primary government - LOGIC	\$ 10 775 029	48
Component units - LOGIC	2 876 584	48
	\$ 13 651 613	

Although Local Government Investment Cooperative had a weighted average maturity of 48 days, the City considers the holdings in these funds to have a one day weighted average maturity. This is due to the fact that the share position can usually be redeemed each day at the discretion of the shareholder, unless there has been a significant change in value.

Interest rate risk is the risk that changes in market interest rates and will adversely affect the fair value of an investment. Generally, the longer the maturity of an investment, the greater the sensitivity of its fair value. The City concentrates its investments on short-term investments in order to limit market risk caused by changes in interest rates. The maximum allowed maturity of any investment by the City is three years.

Custodial credit risk for deposits is the risk that, in the event of the failure of a depository financial institution, a government will not be able to recover its deposits. The City's depository fully collateralizes the City's deposits as outlined above.

B. Receivables

The City contracts with the Texas Department of Agriculture for various economic development programs. In accordance with certain terms of the contracts, funds have been loaned to specific entities at no interest. The City is liable to the State for repayment and the entity is liable to the City for repayment. The repayment of loans is accounted for as miscellaneous revenue and expenditures. The contracts are managed in a special revenue fund. At September 30, the City has two active loans. The following is a summary of transactions for the year ended September 30.

	LOANS	LOANS
	RECEIVABLE	PAYABLE
Balance at October 1, 2018	\$ 97 385	\$ 97 385
Loan payments received	-	(42875)
Loans paid	(42 875)	-
Balance at September 30, 2019	\$ 54 510	\$ 54 510

NOTE 3 - DETAILED NOTES ON ALL FUNDS - CONTINUED

The loans are comprised of the following individual issues:

1997 Texas Capital Fund, \$500,000, due in 240 monthly
payments of \$2,083 \$ 8 334

1998 Texas Capital Fund, \$357,500, due in 240 monthly
payments of \$1,490 \$ 46 176

TOTAL \$ 54 510

Future requirements are as follows:

		PAYABLE/			
YEAR	R	ECEIVABLE			
2020	\$	26 209			
2021		17 875			
2022		10 426

NOTE 4 - OTHER INFORMATION

A. Pension Plan

Plan Description

The City of Center participates as one of the plans in the nontraditional, joint contributory, hybrid defined benefit pension plan administered by the Texas Municipal Retirement System (TMRS). TMRS is an agency created by the State of Texas and administered in accordance with the TMRS Act, Subtitle G, Title 8, Texas Government Code (the TMRS Act) as an agent multiple-employer retirement system for municipal employees in the State of Texas. The TMRS Act places the general administration and management of the System with a six-member Board of Trustees. Although the Governor, with the advice and consent of the Senate, appoints the Board, TMRS is not fiscally dependent on the State of Texas. TMRS's defined benefit pension plan is a tax-qualified plan under Section 401 (a) of the Internal Revenue Code. TMRS issues a publicly available comprehensive annual financial report (CAFR) that can be obtained at www.tmrs.com.

All eligible employees of the city are required to participate in TMRS.

Benefits Provided

TMRS provides retirement, disability, and death benefits. Benefit provisions are adopted by the governing body of the city, within the options available in the state statutes governing TMRS.

At retirement, the benefit is calculated as if the sum of the employee's contributions, with interest, and the city-financed monetary credits with interest were used to purchase an annuity. Members may choose to receive their retirement benefit in one of seven payments options. Members may also choose to receive a portion of their benefit as a Partial Lump Sum Distribution in an amount equal to 12, 24, or 36 monthly payments, which cannot exceed 75% of the member's deposits and interest.

NOTE 4 - OTHER INFORMATION - CONTINUED

Employees Covered by Benefit Terms:

At the December 31, 2018 valuation and measurement date, the following employees were covered by the benefit terms:

Inactive employees or beneficiaries currently receiving benefits	44
Inactive employees entitled to but not yet receiving benefits	18
Active employees	69
	131

Contributions

The contribution rates for employees in TMRS are either 5%, 6%, or 7% of employee gross earnings, and the city matching percentages are either 100%, 150%, or 200%, both as adopted by the governing body of the city. Under the state law governing TMRS, the contribution rate for each city is determined annually by the actuary, using the Entry Age Normal (EAN) actuarial cost method. The actuarially determined rate is the estimated amount necessary to finance the cost of benefits earned by employees during the year, with an additional amount to finance any unfunded accrued liability.

Employees for the City of Center were required to contribute 7% of their annual gross earnings during the fiscal year. The contribution rates for the City of Center were 15.88% and 13.32% in calendar years 2018 and 2019, respectively. The City's contributions to TMRS for the year ended September 30, 2019 were \$405,655, and were equal to the required contribution.

Net Pension Liability

The City's Net Pension Liability (NPL) was measured as of December 31, 2018, and the Total Pension Liability (TPL) used to calculate the Net Pension Liability was determined by an actuarial valuation as of that date.

Actuarial Assumptions:

The Total Pension Liability in the December 31, 2018 actuarial valuation was determined using the following actuarial assumptions:

Inflation 2.5% per year

Overall payroll growth 3.50 to 10.5% per year (including inflation) Investment Rate of Return 6.75%, net of pension plan investment

expense, including inflation

Salary increases were based on a service-related table. Mortality rates for active members, retirees, and beneficiaries were based on the gender-distinct RP2000 Combined Healthy Mortality Table, with male rates multiplied by 109% and female rates multiplied by 103. The rates are projected on a fully generational basis by scale BB to account for future mortality improvements. For disabled annuitants, the gender-distinct RP2000 Disabled Retiree Mortality Table is used, with slight adjustments.

NOTE 4 - OTHER INFORMATION - CONTINUED

Actuarial assumptions used in the December 31, 2018, valuation were based on the results of actuarial experience studies. The experience study in TMRS was for the period January 1, 2010 through December 31, 2014, first used in the December 31, 2015 valuation. Healthy post-retirement mortality rates and annuity purchase rates were updated based on a Mortality Experience Investigation Study covering 2009 through 2011, and dated December 31, 2013. These assumptions were first used in the December 31, 2013 valuation, along with a change to the Entry Age Normal (EAN) actuarial cost method. Assumptions are reviewed annually. No additional changes were made for the 2018 valuation.

The long-term expected rate of return on pension plan investments is 6.75%. The pension plan's policy in regard to the allocation of invested assets is established and may be amended by the TMRS Board of Trustees. Plan assets are managed on a total return basis with an emphasis on both capital appreciation as well as the production of income, in order to satisfy the short-term and long-term funding needs of TMRS.

The long-term expected rate of return on pension plan investments was determined using a building-block method in which best estimate ranges of expected future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. The target allocation and best estimates of arithmetic real rates of return for each major asset class are summarized in the following table:

		LONG-TERM
		EXPECTED REAL
	TARGET	RATE OF RETURN
ASSET CLASS	ALLOCATION	(ARITHMETIC)
Domestic Equity	17.5%	4.80%
International Equity	17.5%	6.05%
Core Fixed Income	30.0%	1.50%
Non-Core Fixed Income	10.0%	3.50%
Real Return	5.0%	1.75%
Real Estate	10.0%	5.25%
Absolute Return	5.0%	4.25%
Private Equity	5.0%	8.50%
TOTAL	100.0%	

Discount Rate

The discount rate used to measure the Total Pension Liability was 6.75%. The projection of cash flows used to determine the discount rate assumed that employee and employer contributions will be made at the rates specified in statute. Based on that assumption, the pension plan's Fiduciary Net Position was projected to be available to make all projected future benefit payments of current active and inactive employees. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the Total Pension Liability.

B. Other Postemployment Benefit (OPEB)

Plan Description

Texas Municipal Retirement System ("TMRS") administers a defined benefit group-term life insurance plan known as the Supplemental Death Benefits Fund ("SDBF"). This is a voluntary program in which participating member cities may elect, by ordinance, to provide group-term life insurance coverage for their active members, including or not including retirees. As the SDBF covers both active and retiree participants, with no segregation of assets, the SDBF is considered to be an unfunded OPEB plan (i.e. no assets are accumulated).

The City of Center contributes to the SDBF at a contractually required rate as determined by an annual actuarial valuation. The rate is equal to the cost of providing one-year term life insurance. The funding policy for the SDBF program is to assure that adequate resources are available to meet all death benefit payments for the upcoming year. The intent is not to prefund retiree term life insurance during employees' entire careers.

All eligible employees of the City are required to participate in TMRS.

Benefits Provided

The death benefit for active employees provides a lump-sum payment approximately equal to the employee's annual salary (calculated based on the employee's actual earnings, for the 12-month period preceding the month of death). The death benefit for retirees is considered and other postemployment benefit ("OPEB") and is a fixed amount of \$7,500.

Employees Covered by Benefit Terms

2017	0.19%	0.07%
2018	0.18%	0.05%
2019	0.19%	0.07%

The City's contributions to the SDBF for the year ended September 30, 2019 were \$4,902, and were equal to the required contribution.

Summary of Actuarial Assumptions

Inflation Salary increases Discount rate*	2.5% 3.50% to 10.5% including inflation 3.71%
Retirees' share of benefit-related costs	\$-0-
Administrative expenses	All administrative expenses are paid through the Pension Trust and accounted for under reporting requirements under GASB Statement No. 68.
Mortality rates - Service retirees	RP2000 Combined Mortality Table with Blue Collar Adjustment with male rates multiplied by 109% and female rates multiplied by 103% and projected on a fully generational basis with scale BB.
Mortality rates - Disabled retirees	RP2000 Combined Mortality Table with Blue Collar Adjustment with male rates multiplied by 109% and female rates multiplied by 103% with a 3 year set-forward for both males and females. The rates are projected on a fully generational basis with scale BB to account for future mortality improvements subject to the 3% floor.

^{*} The discount rate was based on the Fidelity Index's "20-Year Municipal GO AA Index" rate as of December 31, 2018.

Note: The actuarial assumptions used in the December 31, 2017 valuation were based on the results of an actuarial experience study for the period December 31, 2010 to December 31, 2014.

NOTE 4 - OTHER INFORMATION - CONTINUED

OPEB Expense and Deferred Outflows of Resources and Deferred Inflows of Resources Related to OPEB

For the year ended September 30, 2019, the City recognized OPEB expense of \$13,285.

As of September 30, 2019, the City reported deferred outflows of resources and deferred inflows of resources related to OPEB from the following sources:

	Deferred		Deferred
	Outflows of		Inflows of
	Resources	_,	Resources
Differences between expected and actual	\$ -	\$	5 258
Changes in actuarial assumptions	-		933
Difference between projected and actual earnings	-		-
Subsequent contributions	5 167	_,	_
TOTAL	\$ 5 167	\$	6 191

\$1,113 reported as deferred outflows of resources related to OPEB resulting from contributions subsequent to the measurement date will be recognized as a reduction of the OPEB liability for the year ending September 30, 2020. Other amounts reported as deferred outflows and inflows of resources related to OPEB will be recognized as OPEB expense as follows:

C. Risk Management

The City is exposed to various risks of loss related to torts; theft of, damage to and destruction of assets; errors and omissions; and natural disasters. These risks are covered by commercial insurance purchased from independent third parties. The City provides employee health and accident insurance coverage with commercial insurance purchased from independent third parties. Coverages have not significantly decreased and settlements have not exceeded insurance coverage for each of the past three years.

D. Prior Period Adjustment

For the year ended September 30, 2019, a prior period adjustment was recorded to correct a cash balance previously incorrectly reported due to a transfer in the wrong period. This resulted in a change in fund balance/net position of \$184,692.

SUPPLEMENTARY INFORMATION

NONMAJOR GOVERNMENTAL FUNDS

Special Revenue Funds

Special revenue funds are used to account for specific revenues that are legally restricted to expenditures for particular purposes.

<u>Texas Capital Fund - Grant Repayment Funds</u> - To account revenues and expenditures related to Texas Department of Agriculture loans.

Court Technology and Security Funds - To account for certain fees assessed on fines.

Hotel - Motel Fund - To account for hotel-motel taxes and related expenditures.

<u>Civic Center Fund</u> - To account for the construction of the civic center for activity related to civic center capital asset improvements.

<u>Tax Increment Financing Fund</u> - To account for activities related to the tax increment finance district.

<u>Industrial Development Fund</u> - To account for activity related to industrial development initiatives.

<u>Police Department Forfeiture Fund</u> - To account for forfeited funds remitted to the police department.

<u>Logic Park Fund</u> - To account for the construction of park facilities.

Recreation Fund - To account for recreational activities for the citizens of Center.

Home Grant - To account for revenues and expenditures applicable to Home Grants.

<u>Airport Construction Fund</u> - To account for construction and activity related to airport capital asset improvements.

<u>Street Improvement Fund</u> - To account for contributions of the Street Economic Development Corporation for city street improvements.

Debt Service Fund

<u>Debt Service Fund</u> - To account for the accumulation of monies for the payment of general obligation debt.

Permanent Funds

<u>Cemetery Endowment Fund</u> - This fund is used to account for principal trust amounts received and related interest income. The interest portion of the trust can be used to maintain the Fairview cemetery.

<u>Animal Welfare Fund</u> - This fund is used to account for principal trust amounts received and related interest income. The interest portion of the trust can be used to maintain Animal Welfare.

COMPLIANCE SECTION

INDEPENDENT AUDITORS' REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH GOVERNMENT AUDITING STANDARDS

Honorable Mayor and City Council City of Center, Texas

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of the governmental activities, the business-type activities, the aggregate discretely presented component units, each major fund, and the aggregate remaining fund information of City of Center, Texas, as of and for the year ended September 30, 2019, and the related notes to the financial statements, which collectively comprise City of Center, Texas' basic financial statements, and have issued our report thereon dated April 13, 2020.

Internal Control Over Financial Reporting

In planning and performing our audit of the financial statements, we considered City of Center, Texas' internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of City of Center, Texas' internal control. Accordingly, we do not express an opinion on the effectiveness of City of Center, Texas' internal control.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A material weakness is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis. A significant deficiency is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or, significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether City of Center, Texas' financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.
