

Cardboard

Old corrugated boxes are recycled to make new boxes.

Paper

A recycled 4-foot stack of newspaper produces as much paper pulp as a 40-foot tall pine tree.

Plastics

Plastic containers are recycled to make toys and other plastic objects.

Glass

Glass bottles and jars are recycled to make other glass objects, such as drinking glasses.

Aluminum & Steel

Recycling one aluminum can will save enough energy to run your TV for three hours.

TEX

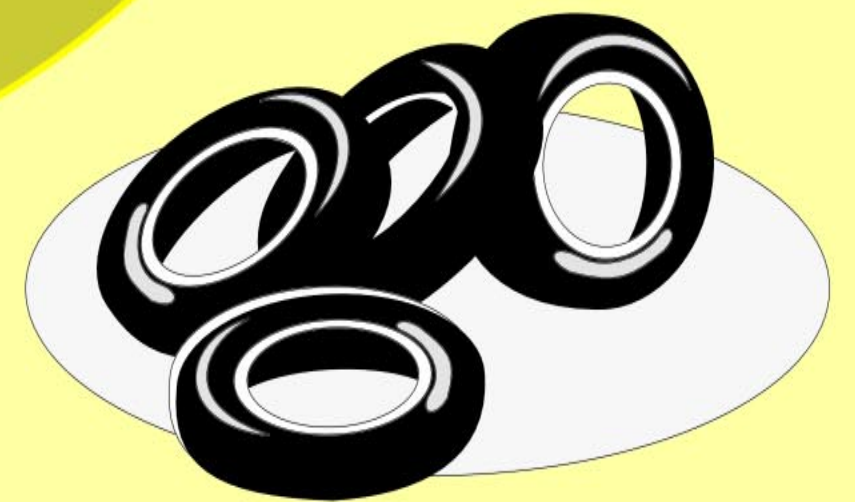

&

DOT

Toilets

Old toilets are crushed to make roadbase in highway construction.

Tires

Tires are shredded and mixed with asphalt for use in highway construction.

Motor Oil

Used motor oil can be re-refined for use in vehicles, or made into fuel oil or asphalt for highway construction.
